

SHARE YOUR GARDENING STORY!

The Arab American National Museum is excited to announce a new project – a rooftop garden expected to open in May 2023!

AANM invites Arab American home gardeners in Southeast Michigan and beyond to share their gardening stories via an oral history and to contribute to the garden by donating some of their plant seeds and/or cuttings.

We are especially looking for participants who can share heirloom plants and seeds from their homelands in the Arab world.
